

Airport Transfers

Transfer Details You hire the vehicle for yourself and your group just like a private taxi. The vehicle types will be catered to your group size, ranging from taxis and minibuses for smaller groups, right up to 44 passenger coaches for the largest groups.

At the time of booking you will receive a Reservation Request, which will then be confirmed by Ekmar Tourism. On confirmation of your booking you will receive a Transport Voucher, which you should print and carry with you when you travel and which contains important travel information.

Your driver will be waiting in front of your arrival gate with an Ekmar Tourism/Ekmar Yachting sign bearing the lead name of your group. Please note that all Ekmar Tourism airport transfers are door to door where road access allows.

In the unlikely event you should have any difficulty in locating your designated driver - please call our emergency helpline where an English speaking representative will help you. (If calling from a mobile, the international dialling code must be dialled. If calling from a land line there is no need.)
